

Bubble – Carlos Ruivo

You don't have to be hollow
Always
You don't have to be followed

But there's somewhere
Where you've been
And got sometime to spend,
Maybe

You don't have to burst the bubble,
This world's not only only trouble
Feel it like your own way

You don't have to be so down
Wake up,
Feel the beat
Slap the shadow
Of the things
You just could have been
Cause tomorrow will still be here
Maybe

You don't have to burst the bubble,
This world's not only only trouble
Feel it like your own way

There's life and
There's nothing
We're meant to make the choices
Get naughty or respectable

But there's somewhere
Where you've been
And got sometime to spend,
Maybe

You don't have to burst the bubble,
This world's not only only trouble
Feel it like your own way
